

Welding helmet

Description

Automatic helmet mask ideal for MMA, MIG-MAG and TIG welding. During welding operations, the operator simply lowers the adiacinic glass visor whilst the transparent glass guarantees protection when the visor is raised, during sanding operations or when using other electrical tools; this means the operator can work always with both hands freely. Main features: light and comfortable to wear, adiacinic filter protection, transparent glass protection. Optional: adiacinic glass 51x107mm cod.802575, glass protection 51x108mm Kit 2 pcs cod. 802652.
