

Bearing screw punch

Description

Bearing screw punch for sheet metal. Suitable for use in aluminium, brass and steel sheet (mild steel, construction sheet) up to max. 2.00 mm thick, for stainless steel sheet up to approx. 1.20 mm. The use of a puller with bearing reduces the effort by approx. 2/3 compared to ordinary cutters without bearing!

Ideal for e.g. an electrician making holes in cabinets - prefabricated switchboards.

This screw punch is made in Europe.

Extra information

Item number	RC430125000020	
Model	30125	
EAN	8718242479097	
CBS Statistics number	82034000	
Article group	K7 - Hand Tools	
Brand	Huvema	
Features	Screw	M8x1x55
	øD	9
	Standard	ISO 12
	Weight	0,072 kg
	Size	12,5 mm
Article group code	1284787
