

Welding electrode

Description

VALUE PACK

Electrodes for welding carbon steel and other alloys.

These basic electrodes E7018 are suitable for professional use.

The welding electrodes are provided with a special coating, which results in high-quality welding with considerable mechanical strength. Suitable for welding in most welding positions.

Suitable for various types of unalloyed steel up to 42 kg/mm² tensile strength. Suitable for welding steel for tanks or pressure vessels, steel applied in high or low temperature, impure steel and steel with higher carbon content.

Class: AWSa5.1: E7018.

Extra information

Item number	T802748	
Model	D2.5x300	
EAN	8004897885841	
CBS Statistics number	83111000000	
Article group	Products still to be classified	
Brand	TELWIN	
Features	Diameter	2,5 mm
	Length	300 mm
	Weight	2,5 kg
	Packaging size	119 pcs
Article group code	2115051
