# Tapered hardchromium diamondfiles

## Description

---

Tapered diamond files, type DKF, premium quality. Covered on all sides with premium diamond. long service life. These files are specially designed for the aluminum extruders industry, as well as for the plastic mold industry. The main application of these tapered files is internal filing in slots and grooves, where access with parallel files is impossible.

## Extra information

Item number	17111287
