

Deburring blade

Description

Hand scrapers for economical deburring, chamfering and finishing of a wide variety of materials and contours. Easily accessible areas, bores, internal and external cross-sections, threads and grooves can be machined by hand. PFERD offers: Three scraping knives for processing steel, aluminium, non-ferrous metals and cast iron, plastics and other soft materials. A mini-scraper blade for universal machining of the smallest geometries from different materials. Two rotary countersinks for the universal machining of bores in different materials.
