

Wheel brush, crimped

Description

Excellent for medium-duty hand-held or automated brushing of workpieces with large surfaces.

Features

Steel wire is the most common filament material. Brushes with steel wire as the filament material are especially well-suited to work on surfaces and deburring. PFERD special wire has high tensile strength and bending fatigue strength. This ensures that the wire wears down in the optimal way, as well as a long tool life, even in extreme brushing applications.

Steel wire withstands temperatures up to 300 °C.

Developed for general use in the workshop.

Extra information

Item number	PF43701115-grp
Model	POS RBU 12520/14,0 ST 0,30
EAN	4007220956250
Article group	PFERD
Brand	PFERD
Article group code	1334884
