

# Vertical toggle clamp

## Description

This toggle clamp is suitable for a wide range of applications for clamping and releasing workpieces. It is used in metalworking for drilling, welding, grinding, testing, etc., as well as in woodworking and plastic processing for gluing, drilling, cutting, and milling operations. The clamp is made from high-quality components, is durable, and designed for continuous use. It features an oil-resistant, ergonomic plastic handle for optimal ease of use.

### Material:

- Clamping plate: Stainless steel
- Rivet: Stainless steel
- Handle: Plastic
- Clamping screw: Steel, tempered, electro-galvanized; stainless steel
