

Tapered hardchromium diamondfiles

Description

Hardchromium diamond files, tapered, premium quality. Covered on all sides with premium diamond. Long service life. Specially designed for the aluminum extruders industry as well as the plastic mold industry. The main application of these tapered files are filing inside slots and grooves, where access with parallel files is impossible.

- Premium quality diamond, for highly professional use
- Swiss basic material (Rohling)
- Very suitable for nitrided aluminium extrusion moulds
- Made according to TCE standards
- Diamond-coated on all sides
