

Wet/Dry vacuum cleaner APL1221

Description

This multi-purpose wet/dry hoover can be used almost anywhere and easily sucks up dust and liquids. Very robust and solid and made with high-quality materials. Thanks to the 4 castors, ease of use is one of the strongest points of this hoover. The powerful motor ensures high suction power and is also equipped with a blower function. With the flexible hose with a crevice nozzle and a floor nozzle, you can reach even the most difficult corners. This hoover is practical and easy to use and has an innovative design and excellent quality. The stainless steel container ensures great strength and durability. The compact size and low weight give this hoover ideal portability. The motor is located in the upper part and can be completely removed to clean the container. The vacuumcleaner is perfect for deep cleaning jobs for homes, offices, garages, sheds, cars and any other indoor or outdoor environment.
