Digitale uitlezing NMS800 1-assig

Description

Newall's products include a wide range of DRO systems, each of which is specifically designed and aimed at increasing the productivity of the machine. Newall is the market leader in advanced digital readout systems and linear encoding technology.

Options when purchasing a complete Newall digital readout system:

Option 1 - You install it yourself
If you prefer to install the Newall digital reading system yourself, our sales department will contact you after ordering. Of course, it is important that we supply rulers of the correct length and the correct fasteners. Our technical service can support you by telephone if necessary.
Order easily and easily through our webshop the desired 1, 2 or 3-axis system. We will then always contact you to discuss which materials you need together.

Option 2- Installation by Huvema
If you wish, we can of course also install the digital reading system for you. Our technical service will then contact you by telephone for an appointment. For the additional assembly costs, we make a quotation per ruler, excluding travel expenses. Simply and easily order the desired 1, 2 or 3-axis system via our webshop. We will then contact you to discuss which materials are needed. Our mechanic takes all the necessary items with him and assembles them at your location. You will receive a separate invoice for the assembly and driving costs.

Our mechanic will be happy to give you instructions on how best to work with the system.

- The Dutch manual is supplied with the system.
- The assembly instruction is included in the delivery
- Warranty: 3 years full warranty

Extra information

Item number	322911
Model	Newall DRO-1
Model group	Newall ...
EAN	8718242066006
CBS Statistics number	90318091
Article group	Mounting bracket
Brand	NEWALL
Features	System 1-axis Accuracy 0,005 mm
Article group code	1996126
