

Shield 300h200mm with safety microswitch

Description

Excellent protective cover for larger drills and radial drills. The protective cap is very easy to adjust because the arm height can be adjusted telescopically. The clamp (5) can also be adjusted in height. The tubes are made of steel and the protective cap is therefore solid and strong. The protective cap is equipped with a safety switch that is built in behind the hinge point.

Properties:

Universal steel mounting bracket.

Safety switch with 1NC and 1 NO contact.

Arm, consisting of 2 tubes, for telescopic height adjustment, variable from 440 to 700mm.

Button for fixing the height adjustment

Mounting bracket that fixes the protective cap to the arm. This is also adjustable in height.

Transparent quadrangular hood of excellent quality polycarbonate.

Shock, cooling oil and chip resistant.
