# Starter

## Description

---

Multifunction electronic starter, power supply and tester, with LiFePO4 lithium battery for 12V starting of cars, vans, small boats, lorries etc.

It performs control tests on the battery: voltage at terminals, starting capacity (CCA) and operational check of the vehicle alternator.

The OVER RIDE function allows starting in emergency conditions when battery is missing (or completely down).

It is a stable and reliable power supply source for battery changes (SUPPLY function).

Robust and compact, it is equipped with high intensity LED light.

Protection against: polarity reversal, short-circuit, overvoltage (incompatible battery voltage), undervoltage (cut-off voltage), overcurrent, overheating, under-temperature, accidental contacts, alternator return currents.

- Multi-functional electronic starter, power supply unit and tester con LiFePo4 lithium battery for 12V cranking (4000A start max). With LCD display.
- OVER RIDE function for cranking in emergency conditions with no battery or completely flat.
- SUPPLY function for stable power supply during battery changes.
- Battery TEST function (cranking efficiency/charge status) and alternator.
- High efficiency led for use as emergency light.

# Extra information

Item number	T829527	
Model	STARTZILLA 4012 XT 12V	
EAN	8056151818027	
Article group	Products still to be classified	
Brand	TELWIN	
Features	Load voltage/start voltage	12 V
	Starting peak current	4000 A
	Battery capacity	15600 Ah
	Weight	3,42 kg
	Dimensions l x b x h	15,5 x 23,4 x 31,8 mm
	Mains voltage	230 V
	Safety level	
Article group code	2441143
