

CNC controlled stop system

Description

The ideal system for positioning the material to be machined, both as a stop and push up system to use. The Huvema LMS 45 is for medium to light duty applications. Sawing machine capacity +/- 500 mm.

Properties:

10430 LMS45 4 meters
10431 I12 CNC control in column 3.3Nm
10423 interconnection kit

Options:

10432 Linear guide extension per metre
10435 Roller conveyor per metre RB630
10434 Mechanical material clamp 600mm
10433 Stop electrically foldable

Extra information

Item number	10438
Model	LMS45-CNC
EAN	8718242159463
CBS Statistics number	84615011
Article group	Measuring and pushing systems
Brand	Huvema
Features	Max. working length 3,6 m
Article group code	1041506
