# Workshop cabinet

## Description

---

These cabinets from Huvema are ideal for protection and storage of various materials. The drawers open silently and easily thanks to ball bearings. Tilting is prevented by the fact that only one drawer can be opened at a time. The drawers can be pulled out up to 98% so that various products can be easily picked and stored in the back of the cabinet. With different slots on the sides of the drawers, you can arrange the inlays as you wish. Each drawer has a maximum load capacity of 80 kg, with central locking. These european manufactured cabinets are very robust due to their 1.2 mm welded steelwork with reinforcement points at all 4 corners, this includes the powder coated finish for optimal strength.

### Properties:

- Ball bearing guide drawers
- With metal inlays
- With foam underlay for extra grip
- Plastic inlays available
- Welded steel construction
- 1.2 mm steel thickness
- Powder coating
- Central locking

## Extra information
